

LESOL S.A. manufactures and commercializes anti-vibration elements. Our engineering department realizes customized studies to PREVENT FROM VIBRATION SHOCK AND NOISE.

Since 1959, LESOL solves vibration problems ensuring high quality in production processes and customer service.

Antivibration systems guarantee a correct running of the machines and avoid loss of performance and prevent mechanical breakdown. In addition they contribute to the good health of the people working around.

PRODUCTION QUALITY

LESOL aspires to a continuous improvement of the production processes, according to the ISO 9001 Certificate.

LESOL disposes of the most updated and computer assisted technology for development and first quality services and products.
